I am against NAB's petition 04-160. I don't feel they should have the right to not allow XM to broadcast Instant Traffic & Weather. If it is available on other radio stations I don't see why that should not be the case also for XM radio. Each morning I always turn XM on to get a quick overview of what is going on so I can plan my route to work. I also listen to a couple of local radio stations to get even more detailed information about lanes to avoid. I am against not giving all radio stations the same rights. If NAB wants to do something worth while they need to be concerned with program content on stations. Sincerely,  
Sue Giesecke
